PROJECT BREAKDOWN

PHASE 1 : Project Analysis

In Phase 1 will be collecting and gathering the requirement analysis through the Documents and meeting. (Completed)

PHASE 2: Project Design

Phase 2 will depend on the previews. It's containing the layout designing, programming structure and methods.

PHASE 3: Project Development

Development Phase is the Most important phase, in this phase will transfer all what we did on the paper to physical code that user can feel and see the result. Here, the website will be clear progressively.

PHASE 4: Project Testing

Testing is the last phase of the Development. It's to check the system and its functions.

PHASE 5: Project Maintenance

This Phase will consist of solving problems and bugs in the testing phase.
