Introduction

The pharmaceutical sector plays an integral role in the development of healthcare. This first pharmaceutical conference and career pharmacy exhibition at the Kingdom of Bahrain aims at supporting and further developing the local pharmaceutical market. This conference is a scientific, informative, educational and pharmacy career support event organized by Bahrain Pharmacists Society in collaboration with the University of Bahrain.

The conference provides a platform for learning and exchange of ideas establishing recommendations in the field. The career exhibition will be a platform to showcase student research, market pharmacy graduates and advertise pharmacy stakeholders. This two-day event features a number of key scientific talks and workshops focusing on the current and future perspectives of pharmacy. The conference also provides a ground to network with national and international key leaders in the field, generating new opportunities and collaborations.

Objectives

This conference aims at exploring the challenges facing the field of pharmacy. The focus will be on the current situation and future perspectives of Pharmacy at various sectors namely education, hospital, community, regulatory, Research and industry. Additional objectives include establishing career opportunities for graduates of the pharmacy program and showcasing UOB Pharmacy student research.

Who Should Attend

Clinical Pharmacists, Hospital Pharmacists, Community and Primary Care Pharmacists, Pharmacy Technicians, National Health Regulatory Authorities, Directors and CEOs of pharmaceutical organizations, pharmacy society members, and academics.

Speakers
